

Smoothie Paradise Project Description

The website for Smoothie Paradise is an interactive platform designed to enhance the customer experience. It includes the following features:

Homepage:

- Displays vibrant visuals of smoothies and related products.
- Social media icons (Facebook, Instagram, TikTok) for direct access to the shop's pages.
- A location button to redirect users to the shop's address on Google Maps.
- Navigation buttons for:
 - Viewing the menu.
 - Accessing the cart.

Menu Page:

- Categorized product list, including:
 - Fresh Juices (e.g., Apple, Orange, Strawberry).
 - Smoothies (e.g., Banana Smoothie, Strawberry Smoothie).
 - Milkshakes (e.g., Vanilla Shake, Oreo Shake).
 - Fresca options (e.g., Oreo, Lotus).
- Each product displays its price and allows users to adjust the quantity using '+' and '-' buttons.
- A "Go to Cart" button for quick checkout access.
- A "Return to Home" button for easy navigation back to the homepage.

Cart Page:

- Shows the total price, including a 14% VAT.
- A "Checkout" button to proceed with the order.

- A "Back to Menu" button for adjusting items.

Checkout Page (Planned):

- Will include fields for:
 - Name.
 - Address.
 - Contact number.
- Ensures smooth order processing and delivery.

This project represents a complete user journey, from browsing to checkout, optimized for convenience and accessibility.

How to Use This Software

1. Homepage Navigation:

- Open the software and land on the homepage.
- Click on the social media icons (Facebook, Instagram, TikTok) to visit the shop's pages.
- Use the location button to find the shop on Google Maps.
- Click the Menu button to view all available products.
- Click the Cart button to check your selected items.

2. Exploring the Menu:

- Browse through the categories: Fresh Juices, Smoothies, Milkshakes, and Fresca.
- See the price of each item and adjust the quantity using the "+" and "-" buttons.
- When you're ready, click the "Go to Cart" button to proceed to the cart page.

3. Cart Page:

- Review the items in your cart.
- Check the total price, including the 14% VAT.
- If everything is correct, click "Checkout" to finalize your order.
- If you want to add or change items, click "Back to Menu" to return.

4. Checkout Process:

- Enter your name, address, and contact number in the checkout form.
- Confirm the details to place your order successfully.

This guide ensures a smooth experience while using the software.

Team Contributions

The project team collaborated and discussed various ideas before settling on the concept of the restaurant project.

Tarek Mohamed (Team Leader):

- Took the lead in envisioning and designing the concept of the restaurant.
- Delegated tasks among all team members to ensure smooth workflow.
- Created 4 pages, setting their dimensions to be resizable and user-friendly.
- Designed the Home Page, including 4 logo images that link to the location and social media pages.
- Focused on creating an aesthetically pleasing and functional design to enhance navigation between pages.
- Assisted other team members with design tasks to ensure consistency.

Mohamed Ashraf:

- Developed the Menu Page, listing all items that should be included in the menu.
- Implemented the Add to Cart feature with "+" and "-" buttons for easy item selection.
- Created the Cart Page, displaying:
 - The selected items.
 - Their prices.
 - The total cost with and without VAT.

Mohamed Gamal:

- Designed the final Checkout Page, where:
 - Users are prompted to input their name, phone number, and address.
 - The page facilitates the process of placing an order and ensuring smooth delivery to the customer home.
